VOL. LXIII NO. 10 ■ OCTOBER 2023 ■ CHRIST HALL ■ KOZHIKODE

From the Provincial's Desk

My Dear Friends in the Lord,
 The three zonal gatherings to become familiar with the document, De Statu Societatis Iesu-2023, DSS, are completed in the month of September 2023. I want to express my gratitude to each and every one of you for your whole hearted participation. The task now for us is to take up the important aspects of this document and continue to reflectively study and thus be transformed at the personal, community, and institutional levels. The organizing committee will further reflect on the whole experience in the first week of October. We hope to indicate some practical steps.

The inner force of this DSS document, like that of the parables of Jesus, is directed to the reader or the listener. What is the Spirit telling you and me? The DSS document very well emphasizes the role of listening. Listen and hear are two primary verbs relating to auditory perception. Hearing is automatic, passive, or unconscious perception of sound. Listening, though it appears to be very simple, it is very complex phenomenon. Based on our experiences what we grasp through listening varies. Hence the role of active listening supported and encouraged by the other. As we reflectively follow the content of this document, let this question continue to guide us.
